CST8288 Project Use Case Narrative

Use Case Number	UC01
Use Case Name:	Add Concert
Type:	Primary
Supporting Diagrams:	CST8288 Project UseCase
Primary Actor:	User
Other related Use Cases	Add Conductor Add Performance Add Composition Add Movement Add Composer Add Soloist
Description:	The user adds a new concert to the season through the Controller. When adding the concert they set the conductor, the performance, and the date on which it occurs.
Pre-Condition:	The season has been created. A conductor exists. A composer exists. The composer has compositions. The composer's compositions have movements. The composition has a soloist to perform it.
Trigger:	This use case is initiated when the committee approves a new concert.
